Live Training

Distance Learning via Email - TBA

Distance Learning via Skype - TBA

You may choose the route that is the most convenient to you. The qualification and certificate is the same.

- Designed for people seeking to become professional practitioners and earn a good living from helping clients with MET Pro. Practitioners develop skills working with a wide range of paying and/or charitable clients, from low energy states (fears, phobias, anxiety, etc) to high energy states (joy, creativity, coaching, abundance, attraction, etc).
- Packaged treatment flows enabling you to sell three or more session packages to your clients for helping them with their problems, whilst also having the option of a long-term relationship afterwards similar to being their life coach.
- Truly “Third Field” and free from the old counselor and Freudian treatment flows.

- Learn how to present MET at fairs, festivals, conferences, exhibitions, businesses, schools, etc.
- The course comes with a full color manual for students that match the visual and energizing format that you already love from Energy EFT Foundation and the re-branded MET Foundation.
- Designed for GoE Rosetta so the course manual is easy to translate into any language that trainers would like to teach in.
- MET Pro is free of the term “EFT” making it immune from legal and trademark issues that have engulfed Europe and Japan. Differentiation from other tapping systems to avoid name confusion. For six years, we’ve been accidentally promoting other brands and this was confusing for clients.
- MET Pro support materials

Course Fee : £495 GBP 50% discount for GoE Energy EFT Master Practitioners.
£100 GBP deposit required. Payment plan available.
